**How We Will Calculate Your Balance:** We use a method called "average daily balance". See your account agreement for further information regarding how we calculate your balance.

**Billing Rights:** Information on your rights to dispute transactions and how to exercise those rights is provided in your account agreement. **How We Will Calculate Your Variable APRs:** We calculate variable APRs by adding a margin to the highest U.S. Prime Rate published in the Money Rates section of the Wall Street Journal on the first day of the prior month. For purchases and balance transfers we add a margin of 7.99%. The APR may increase or decrease each month if the Prime Rate changes. Any new rate will be applied as of the first day of your billing cycle during which the Prime Rate has changed. If the APR increases, you will pay a higher interest charge and may pay a higher minimum payment. The Prime Rate is simply a reference index and is not the lowest interest rate available. If the Wall Street Journal stops publishing the Prime Rate, we will select a similar reference rate. As of October 30, 2025, the index was 7.00%.

**Prime Rate:** The prime rate used to determine your APR is the US Prime Rate as published in the Wall Street Journal on the 1st day of the prior month.
